

Lufthansa Technik

Single Component Availability – SCA

Component loan, exchange and sale

SCA – Single Component Availability

Single Component Availability (SCA) is Lufthansa Technik's fast and flexible service for aircraft components. Based on the high quality and reliability the MRO provider is known for, SCA components are offered with a 12 months or 2,000 flight hours warranty. SCA grants access to one of the biggest component pools in the world worth more than one billion euros.

Loan, Exchange, Sale

This inventory enables Lufthansa Technik to provide customers rapidly with aircraft components worldwide – irrespective of whether they already have a contract with the MRO provider. SCA offers tailored component availability services on a case-by-case basis.

How SCA works

- Contact us 24/7 with your request
- Fast availability check and reply
- Your choice of loan, exchange or sale
- Logistics options for your destination
- Coordination until task complete

Fast, flexible and available worldwide!

Both routine requests and rapid AOG support are available 24 hours a day, seven days a week through a dedicated SCA hotline and Email. Staffed by highly knowledgeable customer service agents, Lufthansa Technik's SCA service offers the responsiveness customers expect for their individual needs and situation.

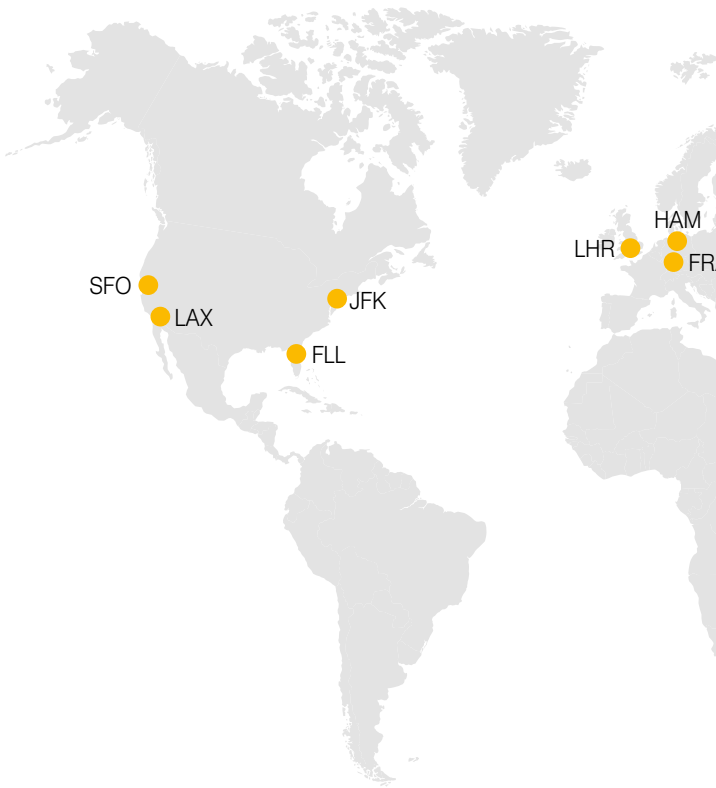

Component portfolio

SCA is available for all Airbus and Boeing commercial aircraft, especially for new aircraft types such as Airbus A350 and Boeing 787.

Customer Advantages

- Worldwide access to vast global component inventory
- Fast 24/7 availability
- 12 months/2,000 FH warranty, whichever occurs first
- High Lufthansa Technik quality standards
- Expert staffing
- Material listed on various online platforms
- Logistics services available on request: air freight, ground transport, courier, OBC, air charter

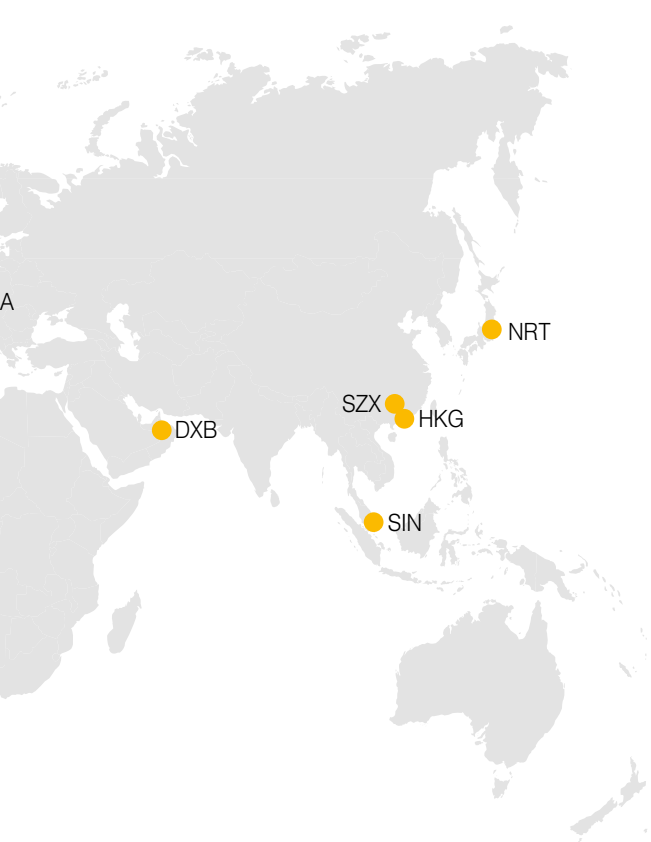

Regional stocks worldwide

Whatever component challenges you are facing, it is our job to keep you flying. A phone call is all it takes to get answers on any aspect of material management. Guaranteed.
