

## Graphic solutions

Our exterior design team is dedicated to helping you face these times with tailored placard solutions.

Many Airports and Country's have set up regulations for employees and passengers to wear a facemask as a preventive measure. We offer you an aircraft placard next to the entry door as kind reminder for crew, passenger, mechanics and ground staff to wear a mask on board the aircraft.

### General description

- **You** want customized and cost effective placards with a short lead time?
- **We** provide a holistic approach with a single point of contact!
