

Lufthansa Technik Services India

With the Lufthansa Technik Group having continuously expanded its local network of material services in India, Lufthansa Technik Services India operates two branches at locations in Mumbai and Bangalore and serves as Lufthansa Technik's foothold in India.

Service spectrum

Lufthansa Technik Services India employs a group of qualified material and administrative specialists at the company's Indian locations to handle the various material support needs of customers in India and the region. Headquartered at the Menzies Aviation Bobba Cargo Terminal at Bangalore International Airport, Lufthansa Technik Services India has been operational in Bangalore since the beginning of 2008. Lufthansa Technik Services India specifically addresses the needs of customers in the Indian and south Asian aircraft components market. The company handles its business in the areas of material management, customer service and logistics and transport services. At the heart of the company's operations in Bangalore is a state-of-the-art warehouse. Built to the latest European standards, it consists of a two-storey, fully air-conditioned facility. The continuous monitoring of temperature and humidity allows even sensitive items to be stored here without any problems.

In focus: Material management, customer service and logistics

The Lufthansa Technik Services India team is capable to handle all aspects of supply chain management, including the material steering and return monitoring of components repaired by Lufthansa Technik and will answer all your questions related to your repair agreement with Lufthansa Technik. In collaboration with Lufthansa Technik's AOG Desk in Hamburg, Germany, the company offers a 24/7 availability. Well integrated into a worldwide transport and logistics network, the logistics team of Lufthansa Technik Services India maintains excellent contacts with both airlines and handling agents, and also cooperates closely on-site with Lufthansa Cargo and other transport partners. Logistics and transport services are assured on a 24-hour, seven days a week basis. Always focussing on the actual customer requirements, the Lufthansa Technik Services India customer representatives are the guarantee for good relationships with the operators in the region. The customers can thus rely on an individual materials support tailored to their specific needs.

Outlook

The continuously expanding local presence of Lufthansa Technik in India means that customers can continue to expect fast on-site services for a vast number of aircraft types and rely on a high quality of customer service in their region.
