Brunei Darussalam

For the attention of: Mr B Chong
Quality Assurance Manager

Dear Sir

Subject – EASA.21J.019

Reference is made to your letter ref: QD10/122111-BC dated 18 June 2011 requesting approval from Brunei DCA to allow Lufthansa Technik Aktiengesellschaft to use its EASA.21J.019 design approval to support agreed maintenance activities on HM The Sultan's Flight aircraft, namely the A340-200/CFM56, B747-400/CF6 and B767-200/CF6.

Having reviewed your application, the Department of Civil Aviation (DCA) hereby approves the Lufthansa Technik Aktiengesellschaft to use EASA.21J.019 design approval to produce approved data for all simple modifications or repairs for minor changes on the aircrafts listed above.

Please ensure that copies should be sent to DCA on all such design Minor approval. However, changes defined as Major will still require DCA approval before implementation.

Yours faithfully

(HJ OMARALI BIN HJ MOHD JA'AFAR)
Director of Civil Aviation
Department of Civil Aviation-Brunei Darussalam
